25X1

25X1	Airfield	Date of Observation	Observation
	Trauersdorf (P 43/X 55)	18 August	No flying activity or parked aircraft. Hangars closed. Size of airfield 800 x 1,200 meters. No aircraft repair shop, fuel dump or AA gun emplacements. No activity.
25X1		30 August	The field was unoccupied. The previously blocked road leading to the field was now open to traffic as far as the entrance.
25X1	Parndorf (P 48/X 77)	26 August	Occupation: 10 fighters with radial engines, 1 fighter with an in-line engine, 2 U-2s, 3 van-like trucks, 9 trucks, 1 jeep, 2 prime movers, 2 tractors. There were 28 tents. No flying between 10 a.m. and 6 p.m.

25X1 \* Comment. The two observations confirm that Trauersdorf airfield has been evacuated.                     . The previously reported size of the field 1,000 x 3,000 meters, is probably not correct. However, the dimensions in the Annex of the present report indicating that the field measures 800 x 1,200 meters are believed to be underestimated since, according to previous reports, jet fighters practiced flying at the field. For sketch of airfield, see Annex.

25X1 \*\* Comment. The occupation of Parndorf airfield has not changed since late-July 1951.
